13 Normalization Methods	37
14 Multivariate Analysis	39

Overview

Here is an overview of what this book contains...

0.1 Who is this for?

This is for anyone analysing amplicon sequence data...

Chapter 1

Introduction

You can label chapter and section titles using `{#label}` after them, e.g., we can reference Chapter 1. If you do not manually label them, there will be automatic labels anyway, e.g., Chapter ??.

Figures and tables with captions will be placed in `figure` and `table` environments, respectively.

```
par(mar = c(4, 4, .1, .1))  
plot(pressure, type = 'b', pch = 19)
```

Figure 1.1: Here is a nice figure!

Table 1.1: Here is a nice table!

Sepal.Length	Sepal.Width	Petal.Length	Petal.Width	Species
5.1	3.5	1.4	0.2	setosa
4.9	3.0	1.4	0.2	setosa
4.7	3.2	1.3	0.2	setosa
4.6	3.1	1.5	0.2	setosa
5.0	3.6	1.4	0.2	setosa
5.4	3.9	1.7	0.4	setosa
4.6	3.4	1.4	0.3	setosa
5.0	3.4	1.5	0.2	setosa
4.4	2.9	1.4	0.2	setosa
4.9	3.1	1.5	0.1	setosa
5.4	3.7	1.5	0.2	setosa
4.8	3.4	1.6	0.2	setosa
4.8	3.0	1.4	0.1	setosa
4.3	3.0	1.1	0.1	setosa
5.8	4.0	1.2	0.2	setosa
5.7	4.4	1.5	0.4	setosa
5.4	3.9	1.3	0.4	setosa
5.1	3.5	1.4	0.3	setosa
5.7	3.8	1.7	0.3	setosa
5.1	3.8	1.5	0.3	setosa

Reference a figure by its code chunk label with the `fig:` prefix, e.g., see Figure 1.1. Similarly, you can reference tables generated from `knitr::kable()`, e.g., see Table 1.1.

```
knitr::kable(
  head(iris, 20), caption = 'Here is a nice table!',
  booktabs = TRUE
)
```

You can write citations, too. For example, we are using the **bookdown** package (Xie, 2020) in this sample book, which was built on top of R Markdown and **knitr** (Xie, 2015).

Part I

Section 1: Name of this section

Chapter 2

Extract DNA

Chapter 3

Library Preparation

3.1 Choosing a region

3.2 Primers

3.3 Indexes

Chapter 4

Sequencing samples

4.1 Instrument

4.2 Caveats

Part II

Section 2: Name of this section

Chapter 5

Quality Control

Chapter 6

Primer Removal

Chapter 7

Quality Filtering

Chapter 8

Generate SV table

Chapter 9

Remove Contaminants

Part III

Section 3: Name of this section

Chapter 10

Alpha diversity

And now for some alpha diversity methods

Chapter 11

Beta Diversity

Chapter 12

Differential Abundance

Chapter 13

Normalization Methods

Chapter 14

Multivariate Analysis

Lots of variables? Use multivariate methods!
